

PETROMAR HD MARINE

DESCRIPTION

PETROMAR HD MARINE is a detergent-type marine lubricant commonly used as a crankcase oil for in-board engines used in small fishing boats. It provides adequate alkalinity and detergency for engine applications using low sulfur diesel fuel.

PROPERTIES

- High alkalinity to control corrosive wear and ensure long service life
- Superior protection against piston deposits and ring sticking
- Inhibition of sludge formation and oil thickening even under severe operating conditions
- Excellent water shedding property for effective removal of water contaminant by centrifuging

GRADES

- SAE 30 and 40

APPLICATION

- In-board engines used in moderate service conditions such as small fishing boats or bancas

AVAILABLE PACKAGES

- Bulk
- 200-liter drum
- 18-liter pail
- 24 x 1 liter in carton

TYPICAL CHARACTERISTICS

	30	40
Specific Gravity at 15.6°C	0.8901	0.8938
Flash Point, COC, °C	240	250
Color, Visual	Red	Red
Viscosity at 40°C, cSt	102.2	139.9
Viscosity at 100°C, cSt	11.41	14.09
Viscosity Index	98	97
Pour Point, °C	-9	-9
TBN, mg KOH/g	6.8	6.8
