

MS 9250 & 9370

DESCRIPTION

MS is a heavy-duty detergent lubricant fortified with additives that give moderate levels of alkalinity and detergency, intended primarily for high and medium speed trunk piston engines using diesel fuel.

PROPERTY

- Clean burning oils formulated from high quality paraffinic base stocks

APPLICATION

- Medium and low-speed diesel using low-sulfur fuel

GRADES

- SAE 30 and 40

AVAILABLE PACKAGES

- Bulk
- 200-liter drum
- 18-liter pail

TYPICAL CHARACTERISTICS

	9250	9370
Specific Gravity at 15.6°C	0.8905	0.8944
Flash Point, COC, °C	240	238
Color, ASTM	3.0	3.5
Viscosity at 40°C, cSt	105.0	149.8
Viscosity at 100°C, cSt	11.50	14.87
Viscosity Index	106	99
TBN, mg KOH/g	11	11
