

# PETROMATE ENGINE FLUSH

---

## DESCRIPTION

---

**PETROMATE ENGINE FLUSH** is a fast-acting system cleaner designed to remove harmful internal engine deposits. It is recommended to use before the regular change oil to help keep the engine clean for better performance.

## PROPERTIES

---

- Exerts cleansing action on cylinder walls, piston rings and other internal engine parts
- Dissolves and flushes out combustion and oxidation trash such as gummy and varnish-like deposits, sludges and other contaminants.
- Restores valves and valve lifters to desired operating efficiency.

## TYPE

---

- Engine System Cleaner

## APPLICATION

---

- For flushing and cleaning engines of cars, jeepneys, trucks and heavy equipment prior to oil change.

## AVAILABLE PACKAGES

---

- 12 x 500 ml in carton

## TYPICAL CHARACTERISTICS

---

Appearance	Clear liquid
Color, Visual	Red
Specific Gravity at 15.6°C	0.8530
Flash Point, TCC, °C	42.0
Viscosity at 40°C, cSt	5.66
Copper Corrosion, 3 hrs at 100°C	1a
