

Product Data Sheet

TDH 50

DESCRIPTION

TDH 50 is a premium multipurpose fluid recommended specifically for use in farm tractors that employ a combined transmission differential hydraulic fluid.

PROPERTIES

- Lubricates the transmission, differential and final drive gears
- Acts as the power steering fluid and hydraulic medium for power brake system
- Provides adequate friction and heat transfer characteristics for power operation of the tractor wet brake and power take-off unit

GRADE

- SAE 20

APPLICATIONS

- Transmission, differential, hydraulic system, wet brake mechanism and power take-off units.

QUALITY LEVELS

- Meets John Deere J204
- Massey-Fergusson H-1110, 1127, 1129A, 1135
- J.I. Case JIC-143, 145
- Ford M2C86-A, M2C134-A

AVAILABLE PACKAGES

- 200-liter drum
- 18-liter pail

TYPICAL CHARACTERISTICS

Specific Gravity at 15.6 °C	0.8687
Color, ASTM	3.0
Viscosity at 40°C, cSt	44.89
Viscosity at 100°C, cSt	9.22
Viscosity Index	194
Flash Point, COC, °C	210
