

Product Data Sheet

TF 38

DESCRIPTION

TF 38 is a hydraulic transmission fluid for torque converters and gear units of commercial and industrial vehicles.

APPLICATIONS

- On highway service in Allison AT, MT, HT and V series transmissions
- Hydraulic system and torque converters of GM for on-highway service
- For Hino and Isuzu vehicles requiring an automatic transmission fluid
- Suitable for use in applications where fluids meeting Allison C-4 or Caterpillar TO-2 performance are recommended

PROPERTY

- Provides protection against corrosion and deposit formation

GRADE

- SAE 20

QUALITY LEVEL

- Allison C-4
- Caterpillar TO-2

AVAILABLE PACKAGES

- 200-liter drum
- 18-liter pail

TYPICAL CHARACTERISTICS

Specific Gravity at 15.6 °C	0.8795
Color, ASTM	4.0
Viscosity at 40°C, cSt	38.9
Viscosity at 100°C, cSt	7.20
Viscosity Index	151
Flash Point, COC, °C	192
