

Product Data Sheet

MARINEKOTE

DESCRIPTION

MARINEKOTE is a durable, asphaltic protective coating for wood, metal and masonry services containing a high softening point asphalt base for resistance to flow at high ambient temperatures and a volatile solvent for quick drying characteristics.

TYPE

- Solvent-cutback and asphalt type protective coating

GRADES

- 10, 60 and 500

APPLICATION

- By brush or spray to coat steel and concrete decks, winches, hatches and covers, pipe guards, standard riggings, pontoons, ore holds, dredge structures, storage tank exteriors, wood decks, barge hulls, wharves and pilings usually found in the construction, automotive, fishing, shipping and sugar industries

AVAILABLE PACKAGE

- 200-liter drum
- 18-liter pail

TYPICAL CHARACTERISTICS

	10	60	500
Specific Gravity at 15.6 °C	0.9106	0.9218	0.9535
Color, Visual	Black	Black	Black
Viscosity at 40°C, cSt	216	1417	10433
Viscosity at 100°C, cSt	18.65	34.50	104.1
Solid, mass %	45	54	63
On Residue from Distillation			
R & B Softening Pt., °C	89	90	99
Penetration at 25 °C, 100g, 5 sec., mm/10	20	20	8
