

# MARINEKOTE SS

---

## DESCRIPTION

---

MARINEKOTE SS is a fast drying solvent-cutback material formulated with a high softening point asphalt and a potent anti-corrosion inhibitor. It leaves a hard, durable and non-brittle residue upon drying, making it a suitable protective coating material for metal surface applications requiring protection against corrosion.

## TYPE

---

- Solvent-cutback and asphalt type corrosion and rust inhibitor

## APPLICATION

---

- Applied by brush or spray for rust proofing or as primer and final coat for galvanized iron roofing

## AVAILABLE PACKAGES

---

- 200-liter drum
- 18-liter pail

## TYPICAL CHARACTERISTICS

---

Specific Gravity at 15.6 °C	0.8956
Color, Visual	Black
Viscosity at 40 °C, cSt	1570
Viscosity at 100 °C, cSt	67.34
Solid, mass %	52
On Residue from Distillation	
R & B Softening Pt., °C	90
Penetration at 25 °C, 100 g, 5 sec., mm/10	20
