

MOLYGREASE EP2

DESCRIPTION

MOLYGREASE EP 2 is a premium lithium-type grease with extreme pressure characteristics enhanced by the presence of molybdenum disulfide additive.

PROPERTIES

- Prevents metal-to-metal contact and surface scuffing
- Provides adequate protection in the absence of full-fluid film lubrication
- Reduces wear and protects equipment parts during intermittent, extreme operating and heavy load conditions

GRADE

- NLGI No. 2

APPLICATIONS

- Anti-friction ball and roller bearings
- Automotive wheel bearings and chassis points operating under high load conditions

TYPE

- Lithium-type extreme pressure grease with molybdenum disulfide

AVAILABLE PACKAGES

- 400-lb (181-kg) drum
- 35-lb (16-kg) pail

TYPICAL CHARACTERISTICS

Appearance, Texture	Uniform/Smooth
Color, Visual	Gray
Worked Penetration at 25°C, 100 g, 5 secs. mm/10	
60 strokes	275
10,000 strokes	282
Dropping Point, °C	182
Base oil Viscosity, cSt at 40°C	190
Tilted Wheel Bearing Test	
Slump Rating	Passes
Leakage, grams	0.2
