

# PETROSINE 68

---

## DESCRIPTION

---

PETROSINE 68 is a high quality lubricant recommended for wet air filters.

## PROPERTIES

---

- Possesses carefully selected additives to improve oxidation resistance
- Provides outstanding anti-wear, anti-rust, anti-foam and tackiness properties

## TYPE

---

- Wet-type air filter lubricant

## APPLICATION

---

- Wet-type air filters

## GRADE

---

- ISO VG 68

## AVAILABLE PACKAGE

---

- 200-liter drum
- 18-liter pail

## TYPICAL CHARACTERISTICS

---

Specific Gravity at 15.6 °C	0.8871
Viscosity at 40°C, cSt	66.4
Viscosity at 100°C, cSt	8.50
Viscosity Index	98
