

HYDROTUR TEP

DESCRIPTION

HYDROTUR TEP is a premium quality turbine lubricant ideal for marine turbines and geared turbine operation, which requires extreme pressure additive

PROPERTIES

- High viscosity index
- Good demulsibility
- Resistant to rust and foaming
- Superior antiwear property

TYPE

- Extreme pressure turbine oil

APPLICATION

- Marine steam turbine; geared turbines

GRADES

- ISO VG 68 and 77

AVAILABLE PACKAGE

- 200-liter drum
- 18-liter pail

TYPICAL CHARACTERISTICS

	68	77
Specific Gravity at 15.6 °C	0.8735	0.8752
Flash Point, COC, °C	240	240
Color, ASTM	<1.0	<1.0
Viscosity at 40°C, cSt	67.3	76.2
Viscosity at 100°C, cSt	8.83	9.62
Viscosity Index	104	104
